Physical address: Coastal CPR & First Aid, LLC
861 Lafayette Rd #7
Hampton, NH 03842

General philosophy

Many of us work side by side with each other, some of us have co-taught classes together. We strive to have our instructors work collaboratively, not competitively. Please support each other and our goals for providing exceptional community safety, CPR AED, and First Aid instruction. Our goals for this Training Center include:

- Providing exceptional training and instruction in BLS, CPR AED, First Aid, as well as other safety and wellness instruction to the community members and organizations around us.
- Supporting other instructors to help us meet our first goal.
- Not competing or trying to undercut other instructors.
- Strengthening public support for emergency and safety education.

We are a Training Center of independent instructors and Training Sites providing community and workplace training. Instructors are not required to teach classes for or at the Training Center.

Instructors are required to own their own instructor manuals and course materials. Instructors should have, or have access to, all the required materials to conduct a course. This includes, but is not limited to manikins, pocket masks, and AED trainers.

Rosters are due within 5 days of a course. eCard fees are due with the roster. Rosters can be submitted electronically or by mail.

eCard fees: BLS \$5 per card, Heartsaver K-12 \$5 per card, Heartsaver \$20 per card.

Training Center Annual Fee: \$20 per year per instructor.
